DATA SCIENCE (ACE-B)  
MALI

# Malian Bioinformatics Days

## ***“Introduction to Redcap and Python Programing”***

*Date : July 24-24, 2022*

*Location : ACE-B, campus de Badalabougou, Bamako and ZOOM*

### **REGISTRATION to WORKSHOP**

#### **Background**

The African Center of Excellence in Bioinformatics and Data Science (ACE-Mali) is a research and training center established in December 2014 through a fruitful collaboration between the National Institutes of Health (NIH) of USA and the University of Sciences, Techniques and Technologies of Bamako (USTTB), Mali. The center aims to overcome barriers in life sciences research in Mali and in Africa by offering high-performance computing infrastructure, expertise, training, and tools in Bioinformatics and Data science to African researchers and scientists. ACE- Mali is delighted to announce an opening of applications for a two-day workshop training to the inaugural “*Malian Bioinformatics Days*”.

#### **Purpose**

The *objective* of the workshop is to train students and professionals with no experience on basic data science topics, including database management (RedCap) and Python programming. The workshop will be delivered online over two days. Participants may be in any field related to biological sciences.

All applications should be submitted by **July 13, 2024** via this link: [Lien](#)

**Notification to authors of accepted communication: July 18, 2024**
